

MARCH IS A BUSY MONTH!

**National Severe
Weather Week
March 2-8**

**National Flood
Awareness Week
March 16-22**

**Tsunami
Awareness Week
March 23-29**

Be prepared!

In 2013 there were 943 reported tornadoes in the United States.

There were 7 weather and climate disaster events with losses exceeding \$1 billion*:

5 severe weather and tornado events, 1 major flood, and the western drought/heat wave.

These 7 events alone killed 109 people and had significant economic effects on impacted areas.

**March is a perfect month learn Emergency & Disaster Preparedness
at State of Vermont Online University.**

We can't change the weather but we can you help increase knowledge and awareness
that will help you understand your risk and be prepared.

ANY TIME! ANY PLACE! ANY PACE!
