We have Transitioned to our New Careers Site!

- We are very excited about this new site and are confident you will find it much more user-friendly!
- You will see below how to access Career Opportunities and other information whether you are an External Candidate or a current State Employee.
- All the other content that was currently under the "For Job Seekers" section has been moved over to the new site: careers.vermont.gov.

For External Candidates

WHAT'S THE DIFFERENCE?

The New SuccessFactors Recruiting system is only for:

- Searching and applying for positions at the state.
- Creating and Managing Job Requisitions.

All other functions you currently do in VT^{HR} (timesheets, etc.) will remain the same.

HOME PAGE NAVIGATION

[9. Home Page Navigation Tour](#)

[Table of Contents](#)

Tour of the Hiring Manager Home Page

Upon logging into the Success Factors Recruiting portal, you will be directed to your **home page**. The Home Page is a **Card Catalog**, with blocks of cards. Each tile created is accessible to users based on specific role created in the portal.

1) Home Tab – All users have at least 3 dropdown options. All users will have “Home”, “Careers,” “Recruiting,” and “My Employee File”. Click on “home” to show the dropdown options, then hover over each drop-down menu and click to select. Based on your role, you may have other options.

- **Home.** Is your home page for accessing any “To Do’s”, easily accessible job aid documents, and Quick Links.
- **“Careers”** brings users to any current jobs posted within the State of Vermont for internal or external applicants. Searching and applying for jobs is detailed further in this document.
- **“Recruiting”** brings users to a list of requisitions to which they’ve been assigned.
- **“Employee Profile File”** brings users to their personal information in relation to work experience, previous employment, education and courses/continuing education.

2) Quick Actions Cards: Users will have at least 3 tiles, based on their role.

- **“My Profile”** brings users to their personal information in relation to work experience, previous employment, education and courses/continuing education.
 - **“Reminders”** displays any reminders that were set.
 - **“Favorites”** where users can select links from the “Available” tab to create shortcuts
- 3) Help and User Guides:** This tile will display useful help resources. For example, you may see a Job Aid for navigating through the SF Recruiting Portal.
- 4) Terms of Use** for logging into SuccessFactors System. You should review upon your first login.
- 5) Search Bar:** The search bar allows users to search by category on the job they are seeking. After typing in the search bar, a list of possible items will drop down where users can choose what they are looking for.
- 6) Account Navigation** – “Employee Profile” (the picture icon) has a drop down to select one of the following: “Settings” and “Log Out”.
- **Settings** allows users to, enable mobile.
 - **Log Out** allows users to logout of the system.

Logging In and navigating to Recruiting Section

- 1 Log into system per previous instructions
- 2 Click on the Home button and select **Recruiting**
- 3 Select **“Create New”** in the top right side of the screen

A Note about the SuccessFactors Mobile App

On the login page shown in step 1, you will see the ability to download a mobile app by scanning a QR Code. Unless your only interaction with SuccessFactors is to approve job requisitions or job offers, you will need to use your mobile device's browser vs. the mobile application to access the full features of the system. We recommend using a desktop computer whenever possible.

CREATING A NEW JOB REQUISITION

Filling in Job Detail Information

- 1** Enter the Internal Job Title, Hiring Manager* (see important note below), Appointing Authority or Delegate, HR Field Administrator and Talent Acquisition. As you start to type names, the system will start to show options based on your input – see step 2 and toolbox on the right.
- 2** Using “Find User” – See Toolbox on right

* Internal Job Title

* Due Date (HR Use Only) 05/25/2022

1 Hiring Manager

* Appointing Authority or Delegate

* HR Field Administrator

* Talent Acquisition

! Important Notes

- Appointing Authority (or designee) Field:** System notifies that a requisition has been created. This email will not require the Appointing Authority to take an action in the system. If approval is required, use the "Add Approver" button shown on page 16.
- If you are starting a requisition **on behalf of the actual hiring manager**, please put your name in as hiring manager on this screen and then change to actual hiring manager on the "involved parties" screen as shown on page 16. If you don't, it will not allow you to complete all the details to send to next step. **IMPORTANT:** Even if you change the hiring manager here, there is no need to add yourself as an additional hiring manager shown on Page 16, Step 1 (you will not be able to.) You will still have the same access to the requisition as the hiring manager because of your role in the system.

“Find User”

Please note you can use the “Find User” feature which enables you to search for the Hiring Manager, Appointing Authority or Delegate, HR Field Administrator and Talent Acquisition. Enter the information, click search and the system will list those that meet the criteria entered. The more information you enter the better the search results will be.

“Autocomplete”

As you start to type name, the system will start to show options based on your input highlighted in **yellow**. Make sure you **click down** on the highlighted name to get it to populate the field. Just hovering won't work!

CREATING A NEW JOB REQUISITION

Completing Position Details

- 1** Once the information for the Hiring Manager, Appointing Authority or Delegate, HR Field Administrator and Talent Acquisition is entered click to NEXT button at the bottom of the screen.
- 2** Once you press “next” the system will bring you to a new screen. At the top of the screen it will show you a “route map” of how the process will flow. You will create the requisition, it will then go to Field HR to confirm and approve, then to the Talent Acquisition team to confirm and post.
- 3** Below the “route map” will list the “Position Details” that need to be entered. Each field with the red asterisk (*) will need to have data entered (see next page.)

Appointing Authority or Delegate's role in Requisition Approval

On the next page, you will be confirming the involved parties on your requisition. Depending on your departmental processes, you will need to indicate the role of the appointing authority (or delegate) in your requisition approval process. Here is a chart that shows the scenarios and what actions you would take based on your internal processes.

Your have received Appointing Authority or Delegate Approval Prior to Creating Requisition and they only need to be notified and do not need to approve in the system

Action :

No further action needed as long as they were input as Appointing Authority/Delegate when you began requisition. You can proceed to the next step.

Your Appointing Authority or Delegate needs to Approve Requisitions in the system when you create a new requisition

Action :

Follow Step 2A on next page to add them as an approver. After that you can proceed to the next step.

***Important:** If you put yourself as hiring manager on first screen in order to complete the form, **but are not the actual hiring manager**, make sure to correct it here!

- 1) The Involved Parties information will pull in from the previous page. If an error was made you can correct it on this page. Be sure the hiring manager, HR Field and Talent Acquisition information is correct. The hiring manager can add **additional users** who will have authority to manage the requisition even if they do not have the hiring manager role. This *will not* add them to the approval path and they *will not* receive notifications on the requisition.
- 2) **Based on the scenarios on the previous page**, if the Appointing Authority only needs to be notified and doesn't need to approve in the system, you can proceed to next step. The Appointing Authority will receive an email indicating that a requisition has been submitted. No action will need to be taken by the Appointing Authority.
 - 2a.) If your Internal Business Process requires the Appointing Authority to approve the new requisition in the system, you will need to add them to the approval workflow by clicking "add approver" before sending to next step
- 3) The Overall Comments box can be used as open text. Any information that needs to be added can be placed here. **You can put information such as your job posting overview or the Time and Labor Data for this position (if you have it), etc.**
- 4) Once all information is entered press "Send to Next Step" at the bottom of the screen. NOTE: If you overlook a required field you will receive an error notification advising where the error was made. Errors will need to be corrected before you can send to the next step.

As candidates progress through the recruitment process, their status needs to be updated in SuccessFactors. You can also create comments and tags on candidate profiles.

There are multiple options to move candidates from one status to another.

Method 1 – Drag & Drop:

You can use this method to move either an individual candidate or a group of candidates from one status to another:

- 1 Select the box at the top of the "Name" column to select all candidates (skip to step 2 if moving an individual candidate)
- 2 Click and drag the icon with 3 horizontal lines next to any of the selected candidates' names. If you are moving an individual candidate, click and hold the 3 horizontal line icon next to their name.
- 3 Drag the candidates to the appropriate status "bucket"

A "Move Candidate" box will appear on your screen (see next screenshot)

UNDERSTANDING AND MANAGING TALENT STATUS PIPELINE

Responsibilities within the Talent Status Pipeline

We will review all of these Pipeline Statuses in the following pages, but this will give you a guide on who is responsible to manage candidate actions within each status.

Pre-Offer:
Hiring Manager ("HM") submits a notice to applicant to update application for tax compliance and criminal history declaration, as required. When the applicant has submitted the info, Field HR reviews and follows up with HM if there are any issues.

A

Ready to Hire: After Field HR has validated tax compliance and reviewed criminal history declaration, they notify the HM that they can proceed with conditional verbal offer. If you have agency/departmental specific background checking that you do, you should keep them in this status until those checks are satisfactorily completed.

B

Offer:
Do not move into offer until all of your Department level background checks are completed. After the HM and applicant have talked, the HM notifies Field HR to proceed with a formal written offer by moving them in to this status.

C

Hired:
Field HR moves them to Hire after candidate accepts offer and ensures all new hire data is accurate. This will:

1. Close the requisition if number of hires equals number of openings on requisition
2. Send new hire data over to VTHR

- 1) **Ready to Hire:** You will receive an email notification when the Field HR Administrator has moved the candidate to this status. This status means that you may proceed with a conditional verbal offer. If there is a pending hire-into-range request or departmental level background check you perform, leave the candidate in this status until those are completed. Once the candidate has accepted your verbal offer, you will move the candidate to the offer status.
- 2) **Offer:** Move the candidate to Offer status (drag and drop) to trigger your Field HR Administrator to submit a formal written offer to the candidate.
- 3) Enter comments to inform the Field HR Administrators of the details that need to be included in the offer letter, including:
 - Start Date
 - Pay Grade
 - Step
 - Any other vital details
- 4) Click **“Apply Updates”** to send.
- 5) Move all other candidates to “Not Selected” status. If you want to follow up directly with any candidate and do not want them to receive a system-generated rejection letter, choose "Other" as the Not Selected reason and add a comment with the reason and that you will follow up with the candidate offline.

UNDERSTANDING AND MANAGING TALENT STATUS PIPELINE

Disposition of Non-Selected Candidates

- 1 Move any candidate that you are not interested in pursuing to the "Not Selected" status.
- 2 Select a reason from the dropdown menu and click "Apply Updates" at the bottom of the screen. Candidates will receive a rejection notification email.*

NOTES:

1. Hiring managers will not have access to the "Offer or Hired" statuses. These statuses are used by Field HR and Talent Acquisition.
2. Any candidate still in an active status (Recruitment Review through Offer) when the final candidate is moved into "Hired" status will automatically receive a letter stating the position has been filled; however, we strongly encourage hiring managers to disposition these candidates appropriately prior to moving the finalist into "Hired" status.
3. ***"Not Selected"** rejection notifications
 - a. These will trigger an email to candidates:
 - i. Ineligible - Min Quals
 - ii. Requisition Cancelled
 - iii. Failed/Incomplete Typing Test
 - iv. Not Selected for Interview
 - v. Rejected Post Interview
 - b. These will not trigger an email to candidates:

CORRESPONDENCE WITH CANDIDATES

Automated Correspondences

- 1 When you are moving candidates to "Not Selected" a new box will appear on your screen:
- 2 The candidates you are taking action on are shown on the left side of the box
- 3 Select a rejection reason from this drop down. It is important that you select the correct reason, as there are different template letters for each rejection reason. The rejection reason you are selecting needs to apply to all candidates that you are taking action on.
- 4 Click "Apply Updates" to make the status change to "Not Selected." This will also trigger an automated rejection letter to the candidate.

About Correspondences

It is critical to communicate with your applicants throughout the hiring process to keep them informed of their status. You'll need to communicate with applicant to schedule them for interviews, to let them know if they are not being interviewed, to inform them of your decision after interviewing, to extend an offer, and possibly for other reasons.

There are 2 ways to send correspondences to candidates directly from your job requisition. For candidates you are rejecting, there are template emails that automatically send to candidates when they are moved to "Not Selected" status. **If you want to reject a candidate via a phone call or direct email, move the candidate to Not Selected status with the reason "Other" and make a comment indicating the actual not selected reason and that you are following up with the candidate outside of the system.** You can also manually send a template or customized email to a candidate directly from the job requisition at any point in the hiring process.

- 1 If you recruit at a high volume, you may choose to see filtered lists of your requisitions instead of having to look through all. In the options menu above your requisitions you can filter them by all requisitions, pending, open, closed and open and pending by using the "Filter Job Requisitions" Dropdown menu
- 2 You can even get more specific with which requisition you are looking to view by choosing "Filter Options"

Important Notes

If you are not seeing a requisition you were looking for, it may mean you have filtering options on that have not been turned off. Make sure you set your "Filter Job Requisitions" dropdown back to the requisition status you want and if you used "Filter Options" mentioned in step 2, make sure to "clear all filters" shown below.

Customizing Display Options of Requisitions

- 1

As a Hiring Manager, you have control over what columns are displayed when looking at your requisitions. We recommend that you keep the columns you see as defaults when you first log in and view, but you can certainly add others. Click the "display options" link in your menu options above your reqs.
- 2

Here you can add columns you wish to see in your view. One very valuable one is "Currently With" under the Pending Req. Options. This will tell you where a pending requisition is in the approval process should you need to follow up to see why it is stalled or you need to change something on the requisition. After you click the "update screen" button, you will see that column.

Creating a Requisition for a Temporary Agency of Transportation Position

- 1
 After logging into the system, and navigating to the “Recruiting” tab, select “Create New” in the top right side of the screen.
- 2
 On the next screen, select the appropriate “AOT Temp Pool Requisition - ” template. The occupational category under which the position falls will determine which template to use.
 Ex. Journeyman falls under “Maintenance,” Civil Engineer I falls under “STEM,” and Right of Way Agent falls under “Finance.” If you are unsure which template to choose, please contact your Talent Acquisition Specialist.
- 3
 Continue to create the requisition as you would a normal requisition. The candidate review, offer, and hiring process will remain the same as on normal requisitions.

Managing Applicants on a Family Services Worker District Specific Position

1

Managing applicants on a Family Services Worker District Specific Position is similar to managing applicants on the old Family Services Worker Statewide Continuous Recruitment requisition, with two exceptions. The first difference hiring managers will see is applicants placed in a new "Phone Screening" bucket. This indicates that the applicant has already been vetted for this location and is ready for the hiring manager to review.

2

The second difference is that district directors or admins will be responsible for dispositioning any remaining applicants on a requisition prior to placing the finalist into "Hired" status. Unlike old Family Services Worker Statewide Continuous Recruitment requisitions, these requisitions are created to fill a specific vacancy and will close once the opening is filled. Please use "Requisition Cancelled*," "No Show for Interview," "Applicant Declined/Withdrew," "Not Selected for Interview*," "Other," "Rejected Post Interview*," or "Family Services Only - CHILD REQ - Rejected, Position Filled."

*Email notification has been tailored for Family Services District Specific positions. Please reference "Email Crosswalk for FSW Templates - Final 02-24-2021" for explanation of each "Not Selected" status and the notification it sends to the candidate when selected.

FAQS

Does the Appointing Authority need to be in the Requisition Approval Path every time?

No, its left up to the business. If your process is they need to be a “hard stop” approver, add as an approver using the steps provided in this guide. Otherwise they just get notified and can manually stop the requisition if they choose, but they needn’t take any action.

Can we change Hiring Manager, Appointing Authority or Delegate to be someone different?

Yes, they will need to be listed in the hiring manager role to have access.

Do we have to write the date/time/location to move to interview status?

No, only that you are interviewing or interviewed. If you wanted to add in specific details as it relates to date/time/location, which would be a good idea, then you can add that to the comments.

What are the Veterans’ points?

Basically, as military veteran or spouse, there are points assigned to each [category](#). As long as they meet the minimum job qualifications, you give preference to interviewing candidates who have veterans’ points.

Where would you put job specific information?

Add it in the comment box when first creating your requisition, or discuss with your TA Specialist.

How do I send resumes to other on hiring panel to review?

Add them as additional hiring managers to review. There is only one “ranking” in status pipeline per requisition, so you should be in agreement prior to moving to a specific ranked status.

What about background checks that my department or agency vs. the standard Tax Compliance and Criminal History Declaration?

Any department/agency level checks you currently do will remain the same process. When Field HR moves your candidate into “ready to hire” from “pre-offer,” that indicates they have satisfactorily passed the Tax Compliance and Criminal History Declaration Checks. If you no do no dept. level background checking, you can proceed with verbal conditional offer and move then to “Offer” status. If you do perform dept. level background checks, you need to leave the candidate in “Ready to hire” status until you have completed your department specific checks. After those are done, you can make your verbal conditional offer and then move them into “Offer” status.

FAQS

What if a candidate has “Yes” under Mandatory Interview in the candidate list view?

This means that DHR has confirmed they meet the [state policy](#) for mandatory interview requests. If your department has additional criteria for granting mandatory interviews, this will not be reflected in the mandatory interview column. You will need add the people responsible for reviewing candidates’ mandatory interview qualifications for your department or agency as additional hiring managers when you create requisitions or send them the Applications/Resumes through SuccessFactors (Actions>Forward to Colleagues)

Can we add comments as the hiring manager to a candidate application (they need tests or checks etc.)?

Yes. You can add the comments to the hiring manager comment field. Please be careful as any comments you put in can be seen by anyone internally associated with this requisition (additional hiring managers, Talent Acquisition, Field HR, etc.). **Candidates will not see these comments.**

Can we create a dummy account to show the external users how to go through the process?

Please do not do this. If you want to help someone, you should actually go through creating their profile/application. An external user guide will be created and available to share with all external users and we will be providing training to certain agencies who have large populations of staff that do not have regular access to computers during the work day on how to help their staff apply for jobs. Additionally, we have trained Department of Labor personnel who assist candidates in job applications.

Is there a limit on the number of documents uploaded for the candidate?

There is a limit to the amount of data each candidate can store. It is not by number of docs. If they should hit the limit, they will get an error indicating that. There should be ample storage space for every candidate to upload multiple documents of normal size.

Will Applicants need to update their profile in the new system?

Yes they will need to create a new profile to apply for any jobs after October 9th.

Do we need to add in the Time and Labor Data?

If you have it, please put Time and Labor data in the comments so there is not the back in forth when it comes to the offer stage. Field HR will be responsible for requesting that data from the business offices prior to hiring candidate and sending new hire information over to VTNR.
